Il sale lascia un residuo di colore bianco che viene eliminato con acqua dolce e spazzolone. Strofinare fino alla rimozione totale del residuo.
Salt leaves a residual of white colour that can be removed with fresh water and scrubbing brush. Scrub until the total removal of the residual.
Das Salz hinterlässt einen Restbestand in weisser Farbe, welcher mit Süsswasser und einer Bürste entfernt werden kann. Solange Reiben bis Restbestand komplett entfernt ist.
Le sel laisse un résidu de couleur blanche qui s'élimine avec de l'eau douce et un balai-brosse. Frotter jusqu'à l'élimination totale du résidu.
